**STAND UP
WITH SAFETY**

AN ISO 14001:2004 & 9001:2008 CERTIFIED COMPANY

ABOUT US

supplier of finished upholstery leather. Since then **MODEL EXIMS** has further developed leather for shoes, belts, bags and automotive upholstery. The company also manufactures safety shoe uppers, bags and belts.

Safety Footwear

Powerful technology: Cutting edge design, High performance, High functionality, Sustained effect, Optimum comfort, Running the gamut of equipment's solution. Extensive Range: PU, Rubber, PVC, Durby, High Ankle, Gumboots, ultra-light modern executive shoes, Sporty look making sure that it is tough, Reliable and easy to service. Features: Optimum cushioning and shock absorbing heel, Impact resistance toe cap, Anti-static sole, Optimal duration oil and chemical resistant providing maximum resilience and minimum weight.

Special Application based: High heat resistance time and non-metallic toes for electrical applications, Penetration resistant sole to provide total protection at all times. Compliance: Compliant to EN and IS guidelines.

MODEL GROUP was first established in 1982 by Late Haji Mehboob Alam for production of vegetable tanned belt and sole leather. It was after the year 1986 that **MODEL GROUP** started chrome tanning vital for the production of safety footwear. Chrome tanning aided the development of upholstery leather for furniture on buffalo hide.

In 2011 **MODEL GROUP** was restructured with **MODEL EXIMS** being assigned to Mr. Mahmood Alam and Mr. Badre Alam. **MODEL EXIMS** was re-established as a leading
